

# DAY 1 SUNDAY

 Morning

Departure from either Quito or Guayaquil to Baltra Island is a 2 ½ hour flight. Upon arrival in the Galapagos, passengers are greeted at the airport by our knowledgeable guides who will accompany them on a short ten-minute bus ride to the pier where they will board the Coral I or Coral II .

 Afternoon

 North Seymour Island

This flat, uplifting island is an important spot to see both magnificent and great frigatebird males courting females, and you'll likely spot blue-footed boobies courting as well. Sea lions, swallow-tailed gulls, crashing surf, and distant views of the Daphne Islands top off a great visit.  
Landing: dry

**Difficulty level**  
Moderate ●

**Type of terrain**  
Rocky

**Duration**  
1-hour 45-minute hike

# DAY 2

## MONDAY

Morning

Once home to the famous Lonesome George, the last tortoise of the Pinta race. The center is set in the Galapagos National Park Service where various interpretative buildings are available to visit. The grounds, with large stands of native vegetation are one of the better places to spot some of the seldom seen Darwin's finches.  
Landing: dry

**Charles Darwin Research Station**  
(Santa Cruz Island)

**Difficulty level**

Easy ●

**Type of terrain**

Flat

**Duration**

1 ½ hour visit  
45-minute round-trip bus ride

Afternoon

**Mosquera Islet**

This tiny, low-lying islet, converted into coral sand, is set between the North and South Seymour Islands. It's home to a group of sea lions that come to laze on the soft white sand. It's an excellent spot to observe shorebirds, herons, lava gulls, and boobies. Snorkeling or diving here, one can often see sharks, rays, and barracudas.  
Landing: wet

**Difficulty level**

Easy ●

**Type of terrain**

Sandy

**Duration**

1 ½- hour hike  
1- hour snorkeling or  
1-hour beach time

# DAY 3

## TUESDAY

 Morning

Sea lions, swallow-tailed gulls, and land iguanas are commonly found at the landing site. The small island is covered with a carpet of a red succulents studded with Opuntia cacti. Along the cliffs, watch frigatebirds, Galapagos shearwaters, and red-billed tropicbirds in display flight.  
Landing: dry

**Difficulty level**  
Moderate ●

**Type of terrain**  
Rocky volcanic

**Duration**  
2-hour hike

 Afternoon

After a fabulous snorkel in the turquoise waters of the protected bay, we may have enjoyed time with sea lions, turtles, reef sharks and spotted eagle rays. Landing on a sandy beach, we spend time watching the abundant sea lions there with us and . We begin a walk past a forest of island-endemic giant Opuntia cacti and we can watch the Santa Fe land Iguana.  
Landing: wet
