

Coral I & Coral II

Wednesday - Sunday

Frigatebird Hill (San Cristobal Island)

pm. Punta Pitt (San Cristobal Island)

pm. Gardner Bay (San Cristobal Island)

pm. Post Office (Floreana Island)

✈ Baltra Airport

DAY 1

WEDNESDAY

 Morning

Departure from either Quito or Guayaquil to San Cristobal Island is a 2 ½ hour flight. Upon arrival in the Galapagos, passengers are greeted at the airport by our knowledgeable guides who will accompany them on a short ten-minute bus ride to the pier where they will board the Coral I or Coral II

 Afternoon

 Interpretation Center & Frigatebird Hill (San Cristobal Island)

The interpretation center is full of interesting information and offers the perfect overview of the formation of the Galapagos. Following a hike to Frigatebird Hill (Cerro Tijeretas) we will have a great look at both species of frigatebirds, with the bonus of a beautiful view of the bay below. Landing: dry

Difficulty level
Low / High ● ●

Type of terrain
Flat path / Rocky

Duration
1 hour hike
1 hour walk

DAY 2

THURSDAY

 Morning

Kicker Rock:
This ancient and eroded volcanic tuff lava named Leon Dormido or Kicker Rock, is formed from two rocks approximately 148 m, named for its resemblance to a sleeping lion.

Cerro Brujo:
From our dinghy ride, as we head to shore, we are first humbled by the immensity of the stunning cliffs of the Sorcerer's Hill. You can enjoy simply sharing the beach with sea lions, snorkelling from shore, or taking a walk to a hidden lagoon.
Landing: dry

Difficulty level

Low ●

Type of terrain

Sandy

Duration

1 hour hike
30 min kayaking
30 min Dinghy ride
1 hour 45 min beach or deep snorkeling

 Afternoon

This is the only place on the islands where we will enjoy the chance to see all three of the booby species in the same place. The red-foots will be perched on the Cordia lutea and small trees, the Nazca's on the ground near the cliff edge while the blue-foots will be a little further inland. Frigatebirds will be all around and the views are breathtaking.
Landing: wet

Difficulty level

High ●

Type of terrain

Rocky

Duration

1 hour 15 min hike
1 hour beach snorkeling, or
30 min kayaking or,
30 min dinghy ride

DAY 3

FRIDAY

 Morning

 Punta Suarez (Española Island)

Punta Suarez is a naturalist's paradise. The oldest extant island in the archipelago is our only opportunity to commune with the endemic wave albatross during their breeding season between April and December. With luck, we can watch their complex courtship display.
Landing: dry

Difficulty level

High 

Type of terrain

Rocky

Duration

2 hours 15min hike

 Afternoon

One of the most stunning beaches in all of the Galapagos.

The long, white, sandy beach, lapped by turquoise waters, home to a colony of Galapagos sea lions. Hood mockingbirds, endemic to this particular island. We can also snorkel here from the beach, in the shallows of the bay.

Landing: wet

 Gardner Bay (Española Island)

Difficulty level

Low 

Type of terrain

Sandy & flat

Duration

1 hour 45 min hike
45 min deep or,
beach snorkeling
or, Kayaking

DAY 4

SATURDAY

 Morning

Our walk takes us to a large, shallow lagoon, often inhabited by a variable number of shockingly pink greater flamingos. We arrive at a powdery white beach, a nesting area for green turtles. Landing: dry

Punta Cormoran (Floreana Island)

Difficulty level
Medium ●

Type of terrain
Rocky

Duration
45 min Dinghy ride or,
45 min walk,
30 min kayaking
1 hour 15 min snorkeling

 Afternoon

 **Post Office (Floreana Island)**

The famous Post Office Barrel. Claimed to have been first set up in 1793 by Captain James Colnett. The system involved whalers and fur sealers would leave addressed letters in the barrel to be picked up by homeward-bound colleagues. Actually visitors often take letters and hand-deliver them to their home countries. Landing: wet

Difficulty level
Low ●

Type of terrain
Sandy

Duration
30 min walk
1 hour snorkeling
30 min Kayaking

DAYS

SUNDAY

 Morning

 Highlands (Santa Cruz Island)

In the Galapagos mountains, admire diverse bird species like finches, flycatchers, crakes, warblers, and egrets (often perched on tortoises' shells). The journey to the reserve showcases the island's contrasting ecosystems, from coastal areas to dense humid forests. Look out for Galapagos Giant tortoises wandering through pastures. This spot is a haven for birdwatchers, as it hosts a wide range of land birds that reside or migrate here.

Landing: dry

Difficulty level
Low ●

Type of terrain
flat & muddy
depending on the season

Duration
1½ hour walk
45 minute drive

 Baltra Island Airport

After the visit, passengers will be transferred to the airport for their return flight to Guayaquil or Quito.
